

Section A: Basic information about the applicant

Please fill in the following information:

Name and surname	
Faculty/PhD Study Program enrolled	
Year of Enrollement in Study Program	
Other affiliation (memberships, programs, etc.)	
Contact (e-mail, mobile)	

Please provide information on the Institution (s) in which the project is implemented (name, address and headquarters, responsible person, web address)

--

Title of the Project

--

Scientific field related to the project:

<input type="checkbox"/> Natural Sciences <input type="checkbox"/> Medicine <input type="checkbox"/> Agriculture <input type="checkbox"/> Engineering <input type="checkbox"/> Computer Sciences <input type="checkbox"/> Communication Technology <input type="checkbox"/> Other (please indicate). _____
--

How is this project related to your PhD program/research interests? (max. 250 words)

Describe previous scientific research you have conducted (with 5 most important references) and an overview of your current research activities (max. 450 words)

Section B: Basic information about the project proposal

Please provide a detailed description of your scientific project proposal. The proposal should include the overall goal and specific objectives of the research, the target group(s), the elements that make the project innovative, the progress that will be made in relation to the current situation in the relevant field of science and the results that will be achieved by the project (350-1000 words max.)

Scientific design (detailed description)

Describe in detail the innovative methods and approaches you use in solving the subject of the research

Please provide a detailed description of the activities for the achievement of key objectives of the project.

1. Activity	➡	Result
2.		
3.		
4.		

Please insert in the following section an Indicative timeframe for the implementation of the project (per activity), starting from March 2019 (all activities shall be completed within 12 months)

--

Please describe how will the results of the project be relevant to the described target group(s)? (max. 250 words)

--

Please indicate how will the results of the project be sustainable after the completion of funding from this program? (max. 250 words)

--

Notes: You may add additional supporting information to your application in the section below (max.150 words)

BUDGET PROPOSAL TEMPLATE - YSAP 2019

Researcher Name and Surname:					
Remarks:		1. All amounts should be indicated in USD			
		2. All amounts should include applicable taxes on equipment and services			
		3. If necessary, add rows to the table			
	1	2	3	4	5
	Type of Expense	Unit of measure	No. Of Units	Amount per unit	Total amount (column 3 x column 4)
A.	COSTS OF PROJECT ACTIVITIES				
1.				total	
2.					
3.					
B.	SMALL EQUIPMENT				
1.					
2.					
C.	ACCESS TO LITERATURE
